

# City of Seattle Pre-Application Site Visit Report

June 10, 2010

This report represents a preliminary determination of project requirements based on your Pre-Application Site Visit (PASV). The PASV Field Assessment and Report is completed by DPD site inspectors and is compiled from initial project information submitted by the applicant.

## Project Summary

<b>AP/Project No.</b>	6250886	<b>Ground Disturbance</b>	Y
<b>Application Template</b>	BLDG	<b>PASV Required This Permit</b>	Y
<b>Application Type</b>	CONSTRUCTION AND DEVELOPMENT	<b>Date PASV Completed</b>	06/09/10
<b>Category</b>	INDUSTRIAL	<b>PASV Done Under</b>	
<b>DPD Review Type</b>	FULL C	<b>Permit Remarks</b>	
<b>Address</b>	1135 S Webster St		
<b>Location</b>			
<b>Zoning</b>		<b>Applicant</b>	MARK CLEMENT P O BOX 3707 MC 1W-09 SEATTLE WA 98124-2207 (206) 617-2944
<b>King County APN</b>	<a href="#">0022000005</a>		
<b>Permit Status</b>	Initial Information Collected		
<b>Description of Work</b>	Soil remediation and repair of leaking diesel storage tank, per plan.	<b>Applicant Email</b>	<a href="mailto:mark.d.clement@boeing.com">mark.d.clement@boeing.com</a>
		<b>Linked AP/Project Nos.</b>	
<b>SDOT Project No</b>			

For detailed zoning information, click the King County APN number above, or visit <http://web1.seattle.gov/dpd/parceldata/> to find zoning details about your address.

## Pre-Application Site Visit (PASV) Report

**Contact:** Roger E Moore, (206) 733-9039, [Roger.Moore@seattle.gov](mailto:Roger.Moore@seattle.gov)

PASV report requirements may be subject to additions, changes, or modifications by the department. The purpose of the report is to alert the applicant that there may be unusual or complex site conditions that trigger requirements from the department regarding this project. **The applicant is responsible for providing all required documents at the intake appointment.** If you have questions about this report or the PASV process, please contact the DPD Site Development Team at (206) 684-8860.

**Note:** Any project application associated with the development site can utilize the results from this PASV if the application is accepted by DPD within 18 months of the above inspection date. After 18 months, the applicant must apply for another PASV. No extensions will be granted.

The site plan did not include the following existing or proposed elements:

- 1) Contours @ 2'-0 intervals of both the existing and proposed contours.

### ECA Mapping Unit and Type

This project site appears to include the following ECAs and/or buffers:

Steep slope  
Liquefaction  
Shoreline habitat

### Earth Disturbance

In addition, provide detailed cross-sections for: Existing apron at interface with proposed work.

### Potential Impacts to Seattle Parks Property

No parks property in vicinity

## Tree Protection

Trees greater than 6 inches in diameter are present on the site but not shown on the site plan. Show the dripline of 1) **all** trees on the site, 2) adjacent trees that encroach on the site that are greater than 6 inches in diameter and 3) **all** trees located in the adjacent ROW. Include common and scientific names for all trees shown. See Director's Rule 16-2008 and CAM 242.

If any trees are to be removed, indicate them as "Removed" and indicate trees that may have drip line impacted by grading activity.

## Construction Stormwater Control

All projects with earth disturbance, regardless of size, require temporary and permanent stormwater control in accordance with the Construction Stormwater Control (CSC) Technical Requirements Manual (DR 16-2009, Volume 2). The CSC Best Management Practices (BMPs) noted below can be found in the Construction Stormwater Control Technical Requirements Manual, available online and from DPD's Public Resource Center.

### Show the following on the CSC/Post Construction Soil Amendment Plan:

Place compost socks, compost berms, filter fabric fencing, straw bales, straw wattles, or other approved perimeter control BMPs to eliminate construction stormwater runoff.

A First Ground Disturbance inspection is required before any ground disturbance related to this permit, including demolition, tree cutting, clearing, grubbing, and grading. After your permit is issued, schedule an inspection by calling (206) 684-8900 or online at: <http://web1.seattle.gov/DPD/InspectionRequest>

## Inspectors Notes

Include earthwork calculations, Indicate total cut quantity and total fill/backfill quantity.

## Possible Exemptions from ECA Submittal Requirements

Applicability of exemption from submittal requirements **must** be confirmed at permit application intake; the standards of the ECA Ordinance still apply.

Emergency threatening public health and safety (see SMC 25.09.45 E)

## Standard Submittal Requirements for Projects in an ECA

Provide a topographic survey with 2-foot contours on and within 25-feet of the property, stamped by a licensed land surveyor (see SMC 25.09.330A)

Delineate the clearing limits on the site plan

Delineate the steep slope critical area on a site plan based on the survey (per SMC 25.09.020 A3b(5)). Provide area calculations for the steep slope delineation.

Site is mapped as liquefaction prone. Geotechnical report and/or structural calculations are required to address liquefaction potential and, if needed, mitigation (see SMC 25.09.100)

Show 100-foot shoreline habitat buffer. All residences must be 25-feet or more from the ordinary high water mark (OHWM). See SMC 25.09.200

## Applicant Next Steps

1. For questions on permit application process, please contact the Applicant Services Center (ASC) at 206-684-8850.
2. Review the requirements set forth in this report.
3. Use Client Assistance Memos (CAMs), checklists and standards, and 5 Steps for a Successful DPD Application Submittal (available on the DPD website) for additional information.
4. When all issues have been addressed, you may schedule an intake appointment with DPD. **Please bring a copy of this report to your intake appointment.**
